European Association for Local Democracy - ALDA

The European Association for Local Democracy (ALDA) is a non-governmental organisation dedicated to the promotion of good governance and citizen participation at the local level. ALDA in particular focuses on activities that facilitate cooperation between local authorities and civil society.

ALDA was established in 1999 at the initiative of the Council of Europe's Congress of Local and Regional Authorities to coordinate and support the network of Local Democracy Agencies, which was established in the early 1990's. Local Democracy Agencies are self-sustainable, locally registered NGO's acting as promoters of good governance and local self-government.

ALDA is a membership based organisation gathering more than 170 members (including local authorities and non-governmental organisations) coming from more than 30 countries of Europe and the Neighbourhood. ALDA is funded through membership fees and project funding from the European Commission, the Council of Europe and other public and private donors.

What is unique about ALDA?

As part of the effort to promote good governance and citizen participation at the local level, ALDA focuses on various topics, including European integration, decentralisation, civic initiatives and volunteering, human rights and sustainable economic development.

What we do?

- Coordinating and supporting the 14 Local Democracy Agencies in their activities,
- Developing and implementing our own projects in the field of good governance and citizen participation at the local level,
- Supporting other local stakeholders' initiatives by providing expertise gained through ALDA's knowledge and experience in the regions where ALDA and the Local Democracy Agencies are active.

Where we work?

ALDA works in most of European Union and the European Neighbourhood countries. Activities in the European Union focus in particular on the promotion of Active European Citizenship. Activities in the Western Balkans and European Neighbourhood focus on good governance, citizen participation, European integration, and decentralisation.

Most of the Local Democracy Agencies are located in the Western Balkans, which gives a natural focus on that area. But ALDA is becoming increasingly active in the European Neighbourhood. New Local Democracy Agencies were established in Kutaisi (Georgia) in 2006, and in Gyumri (Armenia) in 2011. The most recently an LDA was opened in 2015 in Dnipropetrovsk (Ukraine). ALDA is also leading several other projects and developing partnerships in other European Neighbourhood countries, such as Belarus, Morocco, Tunisia, and Turkey.

The NGO Lev Sapieha Foundation

In 1991 the deputies of the local Councils of Belarus, specialists in the field of law, economics, political science and culture, inspired by local democracy and local self-government principles, realised the need to establish a Foundation for Democratic Reforms Support named after Lev Sapieha. It was established on June 26th 1992 and was registered by the Ministry of Justice on August 11th of the same year as a public non-political non-profit organisation. The NGO Lev Sapieha Foundation has currently over 150 registered members across Belarus and regional offices in every region of Belarus

The NGO Lev Sapieha Foundation enjoys a vast network of international contacts. Since 2001 it has been participating in the work of the Congress of Local and Regional Authorities of the Council of Europe as an observer.

The main purpose of the NGO Lev Sapieha Foundation activity is to assist the process of gradual

democratic reforms in the Republic of Belarus, foremost in the fields of local self-government and democracy as well as in the field of economy, science, culture, human rights and ecology.

Principal goals of the organisation are:

- Support for preparation and implementation of the local self-government reform
- Support for establishment and development of NGOs and associated networks at the regional level
- Protection of human rights and freedoms within local communities
- Development of and support for civic initiatives at local level

The Informational Educational Centre for Local Self-Government Problems within the LSF for the first time presented the European Charter of Local Self-Government to Belarusian experts and stakeholders in the mid-1990s. Much attention is being paid to studying the legislation and practical experience of municipalities of Central and Eastern European countries.

The obtained knowledge is shared with municipal, scientific, and public organisations from other countries of the region such as Latvia, Lithuania, Ukraine, Poland, Czech Republic, Germany Sweden, Georgia, Hungary, Bulgaria, and Russia. Such exchange of experience takes place through seminars, round tables and conferences held within the Republic of Belarus, as well as through study visits of Belarusian and foreign experts.

Throughout the entire period of its activity, the experts and coordinators of the NGO Lev Sapieha Foundation have been actively cooperating with the Parliament and local authorities of the Republic of Belarus. Members of Parliament and local Councillors have been taking an active part in numerous seminars arranged by the NGO Lev Sapieha Foundation. The representatives of the NGO have an observer status in the Standing Commission for study the experience of the State Building and Local Self-Government of the Parliamentary Assembly of the Commonwealth of Independent States.

The Bureau on Non-Governmental Organisations within the NGO Lev Sapieha Foundation is focusing on the investigation of legal and socio-psychological aspects of establishment of NGO's in Belarus and their activities, as well as analysis of current legal frameworks, and further development of NGO's and their networks. More than 50 NGO's were established in different regions of Belarus with the support of the NGO Lev Sapieha Foundation as part of its activities. Civic initiatives in the field of social welfare, culture, environment, education, youth and sports are being actively supported at the local level through the implementation of joint projects and consultations.

As part of its activities, the NGO Lev Sapieha Foundation has built partnerships with international organisations, funds and initiatives aimed at promotion of local self-government and development of civil society, as well as citizen participation at the local level.

The NGO Lev Sapieha Foundation is continually developing partnerships with numerous European organisations such as the European Association for Local Democracy (ALDA), Swedish Association of Local Authorities and Regions (SKL), Foundation in Support

of Local Democracy (FRDL) (Poland), Latvian Association of Local and Regional Governments, Association of Local Authorities in Lithuania and others.

In cooperation with its partners, the NGO Lev Sapieha Foundation has been successful in delivering projects supported by the European Commission, UNDP, the Open Society Institute (Soros' Foundation), and the Friedrich Ebert Foundation, the Swedish International Development Cooperation Agency (SIDA), the Konrad Adenauer Foundation, PHARE-TACIS, MATRA, USAID programmes and others.

The NGO Lev Sapieha Foundation offices operate in all the regions of Belarus enjoying a vast array of experience in the area of local citizen participation and local self-government. They plan and tailor their activities to the specific needs of the localities with the support of local NGO's.

The regional offices offer educational seminars to all stakeholders and support civil society initiatives. They cooperate with local councillors and NGO leaders, acting as resource centres for citizens. Thanks to these activities over the past 20 years of its operations more than 6500 representatives of public organisations and local government have had the opportunity to raise their professional and educational skills.

Throughout its history the NGO Lev Sapieha Foundation has been engaged in publishing aimed at disseminating knowledge and best practices in local self-government, civil participation and local initiatives, NGO development activities, review of current Belarusian and international legislation, showcase of projects and programmes of Belarusian experts for the promotion of local self-government reforms in the Republic of Belarus.

The NGO Lev Sapieha Foundation has published over 70 books, publications, periodicals, scientific reviews, journals, guides and reference books for experts in the field of local self-government, NGO and civil initiatives leaders, researchers, academia and students including the following major publications:

- European Charter of Local Self-Government translated into the Belarusian language

About the Project

The project TANDEM II - Cooperation for Citizen Participation and Community Development in Belarus started in May 2013 and run until May 2015. The overall objective was to strengthen an inclusive and empowered society in Belarus by supporting the development of local communities and strengthening their cooperation with local authorities (LAs).

Non State Actors (NSA) play an important role in supporting and generating sustainable development at the local level, contributing to promotion of democracy, social justice and human rights. It is of the utmost importance to support these actors, in order to ensure their ownership of the development strategies and to favour their full involvement in the policy making process, enhancing their capacities to act as development agents at the local level. It is possible to achieve the best results favouring a structured dialogue within and among all types of NSA and LAs, as well as between them and the EU Institutions.

The following actions were undertaken as part of the project:

- A range of trainings on the topics of local self-government and project management
- Publication and distribution of analytical materials
- International study visit to Latvia
- Support of partner projects and civic initiatives
- International conferences

Analytical materials

Forms of Citizen Participation in Local Self-Governance

Author: Mikhail Plisko

Page count: 71 pp.

Number of copies: 500

The brochure covers the legislative framework and instrumental forms of citizen participation in local self-governance. For the purpose of clarity, the publication organises the forms in 3 major groups based on the following general principles: direct forms of participation, indirect forms of participation, and public opinion polls/surveys. The role of the citizens is not limited to taking active part in addressing socio-economic challenges locally but it is also to hold the local authorities accountable.

The brochure is a useful resource for civic activists and civil society organisation members who are interested in the issues of local self-governance, but also for city councillors, teachers or law professionals.

Citizen Participation in Local Decision-Making Processes

Page count: 64 pp.

Number of copies: 500 (400 in Russian and 100 in English)

The publication was prepared ahead of the European Local Democracy Week, which is an annual event gathering the representatives of local authorities from all the 47 Member States of the Council of Europe to discuss the ways of engaging citizens in resolving local challenges. It served as a food for thought reading for the participants.

The publication discusses 9 case studies of effective models for citizen engagement in local decision-making processes. It also shares the expert knowledge and hands-on experience and success stories collected from the participants of the previous editions of the Local Democracy Week.

This publication was produced with the financial support of the European Union.

The content and opinions expressed in this publication are those of the Association of Local Democracy Agencies and its partners and do not reflect the opinion of the European Union.
